Tina,
Some more correspondence for the Arkwood SDMS file.
Thank You
Ruben

Gloria,

yes, that would be a great help.

I did speak to Carlos last week...he indicated that he did not want Casey to work on that letter you and I discussed.

He indicated that we would just need a simple paragraph added to the "memo" that Jon Rauscher generated last month...

Something to the effect...Carlos does not want an apology letter sent to Grisham...a letter indicating what the old standard was,

and how the PRPs conducted clean up measures to those old levels and that while the site WAS being evaluated and deemed Site Wide Ready for

Anticipated Use, new cleanup standards were generated, hence why a new plan must now be generated by the PRPs and approved by

USEPA...

Again, just a one, maybe even two, paragraph letter incorporating the "memo" generated by Jon Raushcer. I have that letter at my desk.

I'm on a two hour conference call/webinar...will be done at around 3 - 315.

Thank you,
v/r

Ruben
